

Philippe-Harold Jewellers

Honesty pays out...to our customers !

Hello John,

Here they are, ready as soon as possible ahead of time!

We have just 1.38ct in total instead of the expected 1.40ct but even so, the price is a lot cheaper than quoted, 2,000 € instead of 2,300 € !

More examples...

Good news, the expected weight of 0.43ct is a little more (0.47ct) at no extra charge !

and here comes the very good news!

you have just a little less diamond weight than expected but also due to the weaker US\$ your ring is now only 970 Euro instead of 1,200 Euro as previously quoted!

the diamond band was widened as requested and we have then also more diamond weight, in total 0.72ct instead of 0.62ct.

On the other hand the man's band is cheaper than expected and your total is also cheaper !

And the good news... both are cheaper than expected with even more diamond weight too!

But... it can happen for really special ones that there is a higher final cost which we always limit:

The extra cost has been limited to 160 Euro only !

Honesty means you pay for what you receive !
